Please briefly present the partner organisation.

De Amicitia is a not-for-profit, non-governmental organisation inscribed in the Spanish

National Associations Register since 1998. No. 164471 Tax No. G82128281 located in a rural area near the city of Madrid.

Main activity of De Amicitia is to organize local and international volunteering activities, specially workcamps.

We also have been very active in the organization of Youth Exchanges and seminars on the frame of EU Programs, sending and receiving ESC volunteers (previously EVS) for many years.

The Project that we ran are mainly on rural development, environmental sustainability and active participation. Also we are working on social inclusion and volunteers/participants with fewer opportunities.

De Amicitia has also a legal department working on legal environmental advising and arbitration of NGOs. Mixing both types of activities allow us to provide social and educational benefits as well as publicise the legal work we do in courts and other settings.

What are the activities and experience of the organization in the areas relevant for this application?

For many years, annually, De Amicitia organizes around 50 youth projects, receives around 400 volunteers to those projects and also sends around 300 the local youngsters to the international projects that are organized by our partners. A part from that we are organising youth exchanges of Erasmus Plus Program giving a special emphasis on youngsters from fewer opportunities background, especially those coming from rural areas. We have an expertise in the project writing and implementation of the NFE projects in the youth field.

What are the skills and expertise of key/staff persons involved in this application?

We work with trained staff and volunteers with more than 10 years of experience on the issue of the application. Most of our staff members have been participated in several trainings and seminars for many years about the youth work that was organized by our partners in the E+ frame and they each year they attend to new trainings in order to update and improve their skill in this area. Behind our organization there are also skilled volunteers ready to help in the conclusion of any projects, giving fresh and clean air to any project we develop.
